

Clinical SAS Programmer – Ann Arbor, MI

This is a long term contract with the potential of becoming a permanent employee!

Looking for an experienced Clinical SAS Programmer with a minimum of 5+ years of experience. We are looking to augment our staff and meet upcoming deliverables. Will be working in a CDISC environment, both with SDTM and also ADaM. The candidate will be expected to produce high quality tables, listings and figures.

Requirements –

- 5 plus years of experience as a Clinical SAS Programmer
- Must have CDISC experience (SDTM mapping & also ADaM)
- Must be able to work onsite (if converted to FTE at some point, then there may be some partial telecommuting options)
- Must have good understanding of the clinical trials process as well as good industry knowledge

Please email resumes to jeff.sprague@talentmine.net or call 925-867-3200.
