

Position: Senior SAS Developer

Location: Remote

Type: Contract to Hire

Rate: \$68

IV Times: Everyday 1-3pm

Start Date: ASAP

Project: This group is working on a 12 year old SAS application that is very complex. Lots of SAS coding needed.

Ideal Candidate:

Sr. level SAS Developer (If they are strong in SAS they will have worked with SAS/Base, SAS/Macros, SAS/EG, SAS/Access, SAS/Connect, rsubmits, and parallel processing)

Need to be very hands on as most of the work will be writing SAS code

This person will be relied upon as the SME of the offshore team and guide/mentor them daily (previous leadership experience will be HUGE)

Top Requirements:

5+ years of SAS/Base, SAS/Macros, SAS/EG, SAS/Access

5+ years of SAS/Connect, rsubmits, parallel processing

5+ years of SQL programming experience/data analysis

5+ experience in data management & data warehouse

Team:

This resource will be the only onshore employee in this group
7-8 offshore employees

Interview Process:

2 rounds –

1st round will be a coding challenge

2nd round will be more cultural/behavioral
